

# Heredity/Genetic Variation Data

What factors could affect how a Species Survival Plan (SSP) decides which animals should participate in a breeding program?

---

---

---

What could the results of your “Rhino Attributes” activity mean for a zoo or SSP?

---

---

How might a keeper be able to tell the difference between each animal they care for?

---

---

---

What similarities and/or differences did you observe between individuals of the same species?

---

---

---

Can you identify any ways that might help a keeper recognize each animal of the same species?

---

---
