

Survival Need Data

Survival Need | Space:

How BIG do you think the exhibit space is?

How did you estimate the amount of space?

Survival Need | Food:

What signs did you see that an elephant had been eating?

What are the FIVE basic needs every elephant must have to survive day to day life?

Animal Behavior Data

School or Group Name: _____

Date: _____ Time: _____

Weather Conditions (What's the weather like outside today?)

Where are the animals? _____

How many are there? _____

What are the distinguishing characteristics of the ONE animal that your group has chosen to study?

Over a 3 minute period, record all of the behaviors that your group observes the selected animal doing. **Circle the one** that you observed your animal doing MOST of the time.

_____	_____
_____	_____
_____	_____
_____	_____

Good work scientists!

Remember to report your observations and help enter your findings into the computer.
